REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1 and 42 are allowed over Wen et al because Wen et al do not disclose "the transmissive portions (of the sub-pixel regions) gathered together within each unit pixel". Also, see the first and second paragraphs of page 20 of the Remarks filed on 12/14/2006.

Claims 2-15 and 43-55 are also allowed since they depend on claims 1 and 42. Claims 16-41 and 56-84 stand allowed for the same reasons set forth in the last Office Action.

Claims 85 and 86, which are similar to claims 1 and 42, are also allowed for the feature "adjacent pairs of the transmissive portions in different sub-pixel regions within each unit pixel arranged such that no reflective portion is disposed between the pair of transmissive portions".

With respect to Applicant's remarks on page 20, last paragraph of the Remarks filed on 12/14/2006, the examiner has *never* conceded that Wen does not teach that each unit pixel includes a plurality of sub-pixel regions. In the Remarks filed on 07/13/2006, Applicant traversed the rejections based on that Wen et al do not disclose sub-pixel regions that have a transmissive portion and a reflective portion (page 4, second and third paragraphs, of the Remarks). The examiner has cited the references to support for the fact that Wen et al do disclose sub-pixel regions that have a transmissive portion and a reflective portion (Office Action mailed on 09/20/2006).
